

27 CFR 178.11: MEANING OF TERMS

State of residency of a member of the United States Armed Forces is discussed.

ATF Rul. 76-24

The Bureau of Alcohol, Tobacco and Firearms has been asked to discuss the State of residency of a person who is a member of the United States Armed Forces and who resides in one State and commutes daily to

his permanent duty station in an adjoining State.

Section 921(b) of Title 18 of the United States Code provides that for the purpose of Chapter 44, a member of the Armed Forces on active duty is a resident of the State in which his permanent duty station is located.

The regulations in 27 CFR 178.11 provide in part that the State of residence is the State in which an individual regularly resides, or maintains his home, or if such person is on active duty as a member of the United States Armed Forces, the State in which his permanent duty station is located.

Held, for the purposes of Chapter 44, Title 18, U.S.C., a member of the United States Armed Forces on active duty is a resident of the State in which his permanent duty station is located. In those situations where a member of the Armed Forces regularly resides in one State and commutes daily to his permanent duty station in an adjoining State, the member of the Armed Forces would be considered to be a resident of both States for the purposes of Chapter 44.
